*This newsletter is not intended to offer investment advice. It is meant to illustrate and educate readers on a variety of approaches to market speculation. No mention of a particular security is a recommendation to buy, sell or hold that or any other security. Any advice is impersonal and not tailored to the investment needs of any specific person. Before buying or selling any stock you should consult with a qualified broker or other financial professional to solicit advice as to the suitability of a given investment. ## **Small Cap Stock Warning**

*Please note that many of these companies trade <100,000 shares/day (small-cap stocks). You should be aware that such stocks are subject to more risk than stocks of larger companies, including greater volatility, lower liquidity and less publicly available information. A newsletter such as this one can have an effect on stock price.*
